

On the following pages the statements have been taken from the texts of books by Frank Lloyd Wright. These comments on education with the photographs of buildings conceived by Mr. Wright comprise a tribute to the inspiration distilled from his philosophy.

"... its architecture will cause it to become a beacon of light."

“No school exists without something to teach . . .”

"Situating in quiet retreats appropriate to reflection and concentration upon deeper concerns of the creative mind by the student and his masters . . .

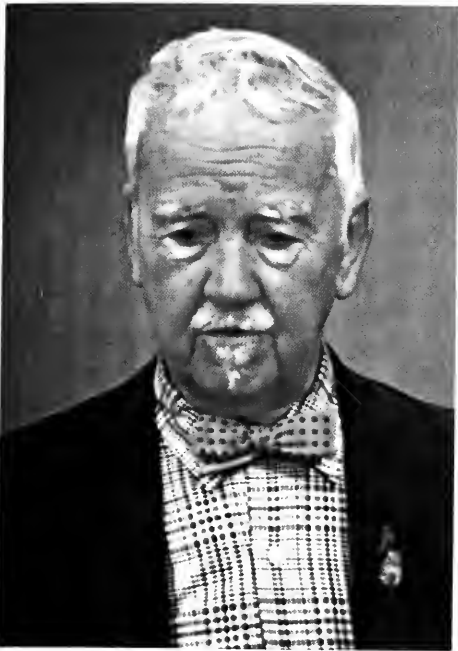

. . . these various rendezvous would be dedicated to culture and contain small groups of mature, well developed teachers tested for wisdom and light by experience."

"Many of our young men are eager, groping; hopeful that our civilization . . . may still wholeheartedly desire indigenous culture and enable the fundamental distinctions between art creative, science inventive and taste intuitive to be learned by schooling."

"Books, plans, drawings, and models would be available for particular intensive study by advanced students chosen by themselves to reside there because they excel, but more especially because of unmistakable **qualities of leadership.**"

“The machine is continuously at work . . .

. . . – molding, remodeling, relentlessly driving human character
in many directions – mobile.”

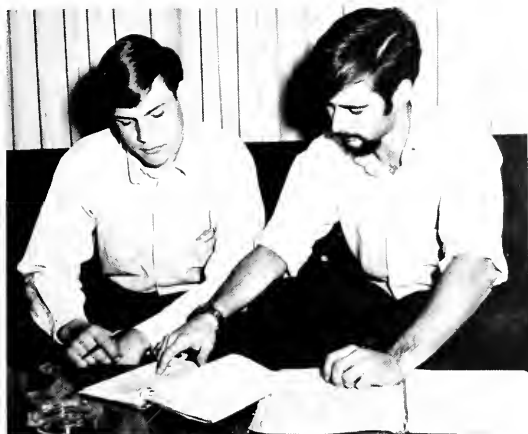

“The more true culture a man has, the more significant his environment becomes to him.”

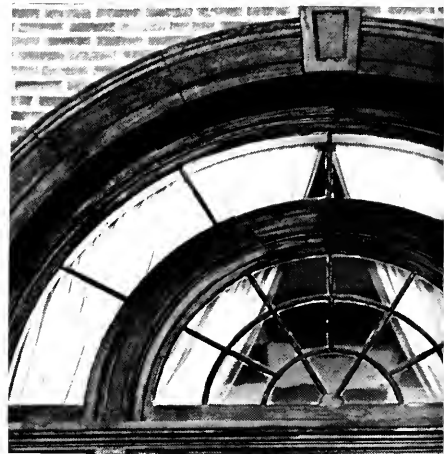

"Character is a healthy individual
growth of freedom from within."

FLORIDA SOUTHERN COLLEGE
LEWELAND, FLORIDA

At the opening they came
with the trunks and personalities
in which they kept
impressions
and dreams
and new ideas.
They unpacked them all
moved in
and made themselves at home
almost . . .

. . . Everyone got settled with the new faces.
The introductions were made
and possibly remembered.
Vote for M.B. or T.R.
for V.P. or S.G.A.
And what if
a freshman didn't learn
the Alma Mater.
Everywhere
the old saw the new
and the new saw everything . . .

. . . There was a time at the beginning
and the sun was out.
An hour lasted an hour or more.
Time to find people and friends
time to be alone and plan
and participate.
And time to put on faces
sing songs
to create
and entertain . . .

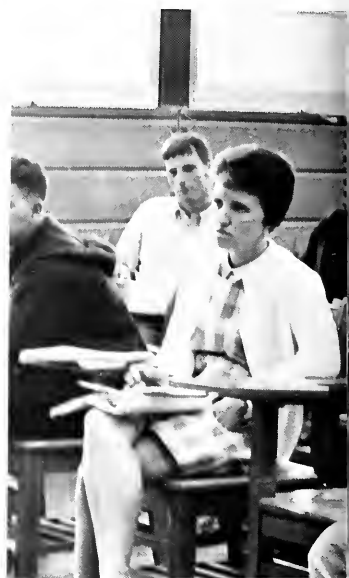

. . . Til the lines began
and the deadlines
and the dates with time schedules . . .
Those cards
with exacting key holes
that lock up
personal facts . . .
When is it?
What is it?
Do you or don't you know . . .

. . . When the classes began
 as they do each semester
 in the labs, studios, shops and rooms
 containing
 the teach and learn . . .
 the whowhatwhywhenwhere
 technique and association . . .
 Some were fascinated
 Some troubled to care
 Some couldn't
 and some just didn't . . .
 there were things to be found out
 and things to know . . .

. . . There on Wednesdays . . .

with convocation mornings,
with lectures,
performers, entertainers
who,
in an allotted hour,
enlightened
on currents, mores,
instructions and explanations . . .

And R.O.T.C. afternoons
of marching, orders
and self-discipline
to which you do salute
or do not,
left and right
when approaching the butt plate
which is or is not
rusty,
Sir! . . .

. . . In the evenings
at times
there were concerts
like "The Lovin' Spoonful"
who played one rainy night
and Maria Alba

with her troop
of Spanish Dancers . . .

Or Bennett Cerf
in lecture form
on publishing and personalities.

MacDonald in recital
of classical piano.

The silence of a mime
named Hakoshima.

And on into the nights . . .

. . . The Greeks
in pleasure and game
for the gods and citizens
on a field
not quite Elysian
with bonfires
and displays
for a show
of Brotherhood . . .

. . . Two teams oppose
 each the other
 the purpose
 for the spectators
 who cheer
 in games.
 All balls are round
 in some manner
 are the objects
 of play.
 Unless it is a race
 with or without
 apparatus
 but always with excitement . . .

. . . On the observatory
 is a snowman
 who knows the season
 and that snow is somewhere,
 though summer suits
 are at banquets
 and chiffon at dances.
 Gifts go under
 the trees
 that go up
 for decoration
 with warm welcome
 from the houses . . .

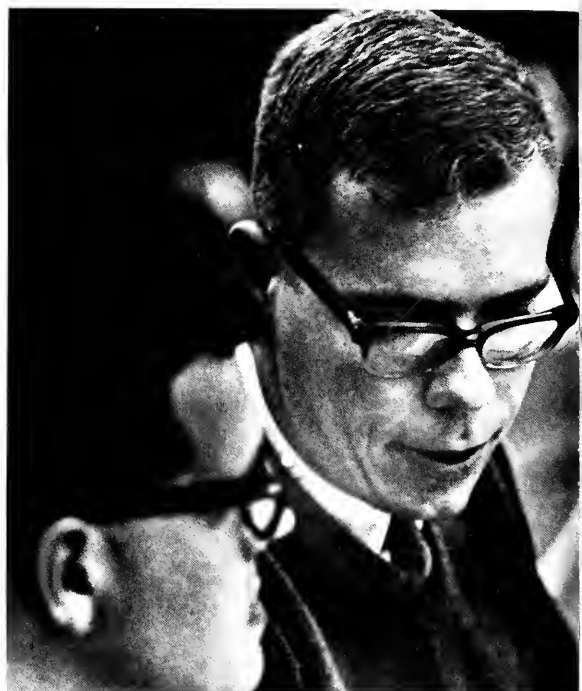

. . . At college
it has been said
Half the education
is living
with people
responding,
respecting,
giving
and taking . . .

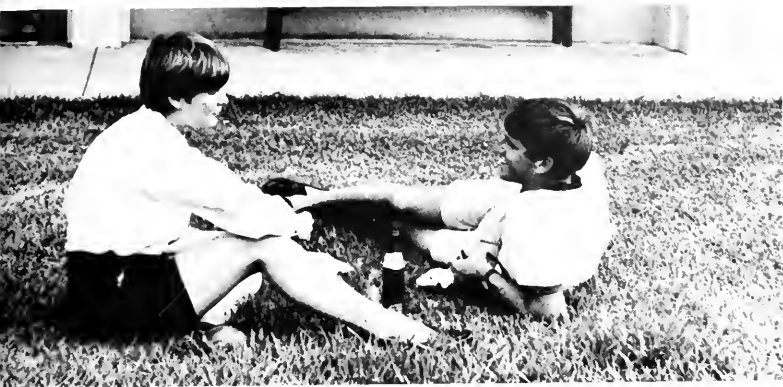

. . . The happiness
 pain, errors,
 advances
 And they,
 the people,
 are always near
 whether or not
 you want,
 need, or care
 to have them
 near . . .

. . . Always there
 to heckle,
 laugh with,
 think to,
 borrow from,
 do for,
 or just to love
 as brothers and sisters,
 men and women,
 or
 a man,
 a woman . . .

At the faculty-student picnics
There is Professor X
and his wife Y
with their
two-four-eight year old
son-daughter
sitting on the grass
With Dean Z
eating picnic provisions.
And they dance, too,
at least at Christmas.
Some of them play golf
or volleyball and basketball
or at least watch.
Some open their homes
and invite students
for punch, cake, coffee
talk and pleasantries . . .
Then they are real
in a different way . . .

... Activities happen
all year
seven days a week
like a bicycle race
and a fashion show,
but then,
five days has
Founders' Week
from Tuesday's banquet
to Saturday's banquet ...
with a special tribute ...

... on a tenth anniversary,
eleven displays,
a queen
a dance
two convocations
a basketball game
all in-between
with alumni
coming,
remembering
ten-twenty-fourty
years ago . . .

ACADEMICS

The college community is a whole of individuals not groups of indistinguishable personalities. To be totally fair each individual in this division should be allotted an unclassified, unranked position at first as being themselves.

IN APPRECIATION

to DR. CHARLES T. THRIFT . . . his 10th anniversary as President of the College . . . during Founders' Week . . . a man who has inspired improvements . . . academically . . . structurally . . . through his philosophy . . . the reason for a college . . .

"Colleges must furnish students with more than a bag of tricks, Sometimes we confuse the absorbing of information with education . . .

The why, when, and how, are necessary, but intellectual and spiritual enlightenment must go hand in hand."

"I really wish you hadn't said that about John."

Searching through the texts
that authors
have filled with knowing
draining out,
reinterpretations
of dissecting
frogs and novels,
personalities and equations
to fill in the wholes
of what is sometimes
memory
hoping to put a cap
on knowledge
and keep it fresh . . .

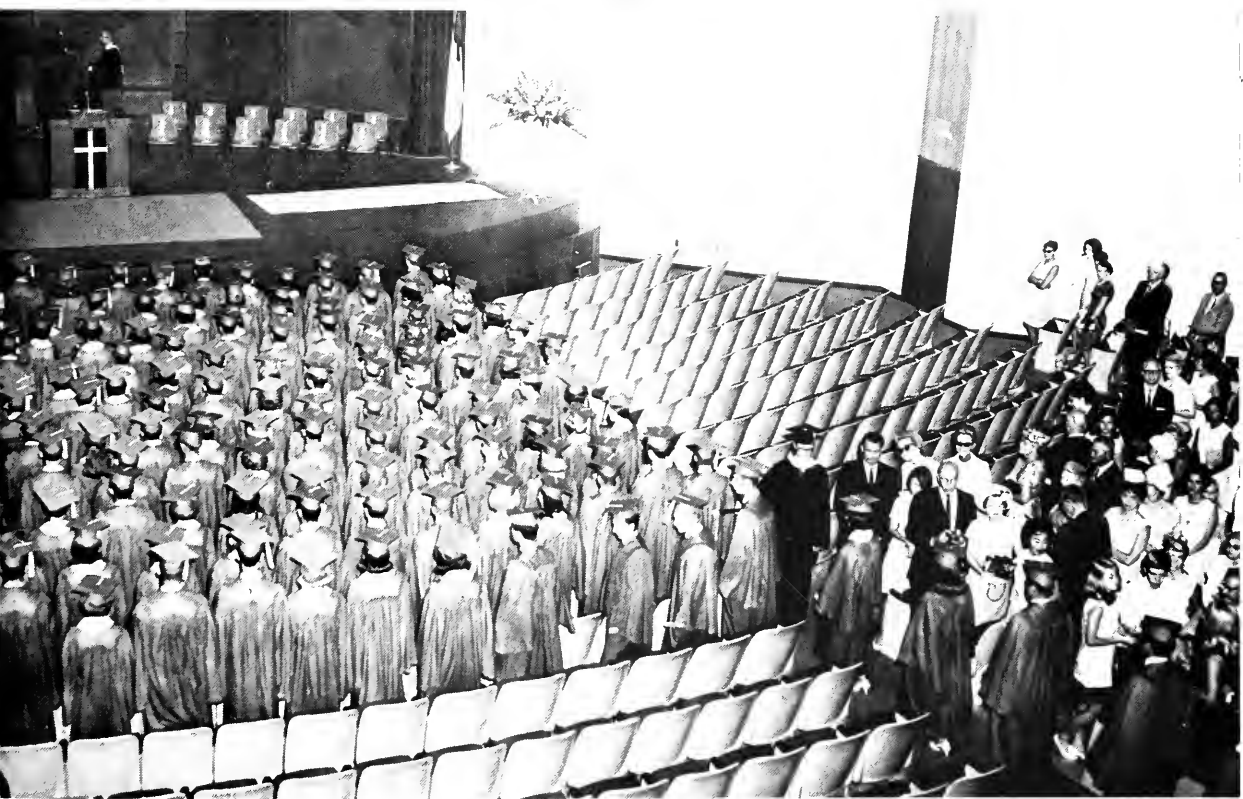

... for reference
 extending beyond
 final tests
 to awareness
 and understanding
 of an unknown
 yet prepared
 existence.
